In 1861, the secesh said that Ahraham Lincoln and his party intended to desirov the institution of slavery in the States. Lincoln and his party denied it and gave the most emphatic assurances that the charge was false. Indeed, it was evidence of disloyalty in Kentucky to make such a charge.

The friends of the Union, in the press and on the stnmp, discredited the charge and showed that the President and his party de-

In this way the contest went on in all parts of Kentucky-the friends of the Union dcfending the President and his party from this charge. It was clear proof that a man was a rehel if he proclaimed and undertook to show that the war would be one on slavery.

Now how is it? Honest old Abraham has proved that what the rebels said was true. and what the frlends of the Union said was false. He has given the lie to what the friends of the Government said and confirmed what his enemies said. He cannot escape the charge of apostasy from the faith npon which he was supported in Kentucky and by the Union men in the Sonth generally. That he has changed his doctrine and his practice radically, nobody denies, regardless of how it might affect the canse of the Government. The partisans of the Administration wish now to condemn all as disloyal who do not support the present doctrines and measures of the Administration. Two short years ago the Administration opposed these same measures, and their partisans did so in like manner.

At that time they were all disloyal practices. It was one proof of loyalty to defend the Administration against the intention of doing what it has since done. It was proof of disloyalty to charge such an intention. The standard of loyelty is changed without notice, and all men are expected to change in confor mity with the vascillating standard at Wash-

Then the guns were cast be understood to mean Iron when we speak of reer? the metal used in making them. In some cases it was, and is, an alloy of copper and tin, called gun-metal, and erconeously "hrass." The objections to iron was the want of wrought fron, but until late years it seemed impossible to make a wronght-iron gun. Differences were believed to exist between the iron smelted by coke and by charcoal, it being held that the latter formed a tongher material. Be that as it may, it la held that cast iron alone is too brittle a metal to be trusted. A distinguished English ordnance officer. In cyldence wrought iron, but until late years it seemed im- clincher upon the whole enterprise: guished English ordnance officer, ln evidence

The object, therefore, has been to supply either some other material, as wrought iron, or even cast steel, less liable to burst, or to strengthen the piece in any way where the greatest force of the explosive power takes place. This is at the breech. The Dahlgren gun was the first effort, and in it the breech was made thicker, and of course stronger: that four months of your session have nearly

Blakely claims and has a patent for this, on the ground that a peculiar "tension" ls put on. What that means we are neither practical nor theoretical enough in our knowledge to say. His later guns are bound with cast-steel, and clusively for the city of New York. have been used with great success. He says, referring to the Southern States of America, in noticing his having been unfairly treated by the British Government: "Since 1861 my senwill enable all persons to keep the run of their ac- noticing his having been unfairly treated hy timents have changed. claim to my consideration." The Whitworth gnn, which is now second ln favor ln England, is composed of "a taper steel tube, cased with steel rings forced over it, but not laterally welded together. Successive layers of rings are super-imposed until the necessary thickness of metal is attained, and the breach of the gun is then closed hy a powerful screw, which screws at the same time Into the barrel and into the contignous rings of steel." This, certainly, ought to be a strong gue; but while It would scarcely ever hnrst crosswise, the steel tuhe might have a tendency to split. We now come to the famons Armstrong gun, of which so much has been said:

"The system is precisely that which ha long been employed in barrels of small arms and all that Sir W. Armstrong claims to have done with respect to these tuhes is to have applied it in the construction of ordnance. On this point we will quote his own words in hls evidence before the Committee on Ord-

Ine Committee will see, therefore, that in the very ontset I contemplated a special mode the very ontset I contemplated a special mode of construction, to render the gun susceptible of rifling. I proceed in this Report [referring to a Report dated July 24th, 1855], to give the relative strength of steel and other materials, and then I go on to say, "There is also much nucertainty in the lateral strength of wronght iron or steel, hecause the flaws or imperfections of welding, which exist in all thick masses of those materie's, almost invariably run in the those materie's, almost invariably run in the those materie's, simost invariably run in the direction of the length, and in general, therefore, only detract from the strength in the transverse direction. It is for these regions that the harrels of mnekets and eporting gins are formed by twisting long slips of iron into spiral tubes, and then welding together the edges, by which means the longitudinal strength of the slips becomes opposed to the explosive force of the powder, and the weldings heing transverse with the bore have no important influence in lessening the strength important influence in lessening the strengtl of the harrel." I quote this as showing the original fundamental idea of my system, which was to form a gun npon the principle of a

fowling-plece. Speaking of his first gun, commenced in December, 1854, and completed in March, 1855, Sir W. Armstrong stated on the same

It was a gun with a steel tuhe, snrrounded with coiled cylinders, similar in every respect to the tubes of gan-barrels. Now, the pecu-liarity of that gnn was not its heing merely a ards of loyalty at their discretion. We prefer bnilt-up gnn, because bnilt-up guns are of ver 3 ancient date. In fact, I have no doubt the old standard, that we hope will snivive the storms of revolution.

If our people had the means and the time to spare, it would learn wisdom by abolition experiments with the negro. These Abolitionists can't learn anything. We don't know that experience will make them any wiser. Their mental organization is a mixture of self-corceit and self righteonsness, which forms a compound impervious to reason, facts or truth. Since they have got the power of the Government in their hands their chief phrenological developments have become morbid. Ambition and avarice have got the helm, and these, prompting their usual bad analities, render their cases honeless. These

### Paper Money in the American Revo-

Doctor James Thacher was a Surgeon ln the Army of the Revolution, and, in 1827, pnb-lished the journal or diary kept by him from 1775 to the close of 1783. It is a readable and interesting volume. His remarks, which we find under date of September, 1782, concerning the Influence of the Government paper money of that day, have a terrible significance

The continental paper money having answered the great purpose of carrying on the war hitherto, being depreciated to a mere shadow, has now ceased to circulate, by common consent of the people. It had by its extraordinary depreciation become the bane of society, corrupting the morals of the people hy exciting a rage for speculation among sill classes. Reckless of all considerations of honor, justice, gratitude or humanity, the honor, instice, gratitude or humanity, the mechanic, the farmer, the merchant, and men of science, scrupled not to involve themselves In paper money speculations, in which brothers defrauded brothers, children parents, and they in their turn spared not their children. KILLED PEACH TREES.—In the West and Southwest the unusually severe frost of the past winter destroyed the peach tree either down to the ground, or nearly so; and the consequence is that in the great peach region compused within the limits of Illinois, Indians, Ohio, &c., some two or three years must elapse before another crop of trees can be mathred. However, if the following method, snggested at a late meeting of the Cincinnati Horticultural Society, be adopted, the deprivation may be shortened at least one year:—Cut off the top as far down as the lujury extends, allowing new wood to grow out of the old stump or atock. Two memhers of the society testified that they had eaten peaches from trees thus treated, which were at least fifty years old. In one instance the tree had been cut down three times. A REMEDY FOR PILES .- It is a bleesing to the suffering to know that we have an effectual remedy for this truly tremblesome disease Mr. J. P. Hazarde, of 164 Second street, Cincinnati, Ohio, takes great pleasure in informing all who are suffering with piles that he used a small quantity of Dr. Strickland's Pile Remedy, and it effected a permanent cure. This seems to be the case with all who make use of this spiendid preparation. It is manufactured at No 6 E at Fourth street, Cincinnati, O., and sold by all druggists. mr12 dad w2m

To gentlemen or ladies who have had much experience in the world, it is not neces-sary to say that good articles are the most economical. In their manufacturing opera-tions, Messra, Green & Green have invariably striven to make the best articles that could in produced, knowing that appreciative enstomers would be willing to pay for quality. Their hats, caps, shirts and underwear are well and carefully made, and of the best materials. Their establishment is at the southwest corner of Main and Fourth streets.

ALLEN'S LUNG BALSAM contains no opium in any form, consequently does not affect the head or constipate the boweis. It is quite un-like other congh remedies in that respect. Try it-after everything else has failed.

The Town Sacked and Burned by Forrest---Government Stores and the Steamer Dacotah Destroyed.

[Special Dispatch to the Clucinnatl Gazette.] CAIRO, March 26. The steamer Istan, from Padneah, Ken-

tucky, arrived this morning.

About five thousand rebels under Forrest Colonel Hicks immediately ordered all the roops into the fort, and sent about three

thousand of the inhabitants across the river to the Illinois side.

The city was set on fire in several places. Two gunboats opened fire on the town, and the firing bad commenced from the fort when the latan left at 5 o'clock this morning. The headquarters, Quartermastets' and Commissaries' buildings were in flames, and a large number of houses in other parts of the

own were burning. The stores were all consumed, and but few rations in the fort.

The rebels appeared to have possession of everything but the fort. Firing had ceased when the boat came way. The marine way, with the steamboat Dacotah, was burned.

one. The cit'zens were preparing to return.

A number of persons are reported killed. SECOND DISPATCH. METROPOLIS, March 26, via Cairo 27. Boats from Paducah report that the enemy eturned. At 3 o'clock shelling commenced

THIRD DISPATCH.

CAIRO, March 27. Paducah is in ruins. Forrest, with seven thousand men, formed a line of battle two and a haif miles long, on Friday aftermoon, in the city, and demanded the surrendent of the first of the surrendent of the surr shooters fired from buildings at the troops in the fort and on the gunboats. The garrison and boats fired at the buildings, knocking them down and ectting them on fire. While the fight was going on parties of the enemy plundered stores and carried off horses. The gunboats fired two rounds. gunboats fired two rounds. They had three wounded. The captain of the Pawpaw received a scratch from a mine ball on the phace, and a ball went through his parataloons. The troops in the fort had four killed and forty-six wounded. Forrest took about forty convalescens, in the hospital, prisoners. The enemy had 300 killed and 1,000 wounded. The rebel Generals Harris and Burbridge were in the fight at Paducah.

POURTH DISPATCH.

CAIRO, March 27.

Boals that left Paducah at 10 this morning report all quiet. Citizens are returning. Mrs. Grimes and severnl other women were billed during the engagement. Last evening 500 rebeis entered Hickman, pinndered the houses and left. The Home Guard captured a rebei Colonel and half a dozen nien, and horses, between Trenton and Mayfield, last night.

Cairo, March 27.

I then scized an ax, and said that I would bury it into his lead. My wife came out and told him to go nway. My wife picked up a brick, when accused drew a pistol. Deceased then fired, the ball taking effect in the right captured a rebei Colonel and half a dozen nien, and horses, between Trenton and Mayfield, last night.

LATEST. The Dunleith is just from Paducah at one A. M. The officers report that the enemy at Mayfield had sent in a flig of truce, for what purpose is not stated.

THE STALLION EDWARD EVERETT.—We call the attention of those Interested to the advertisement of the trotting stallion, Edward Everett. In Wilkes' Spirit of the Times we find the following notice of a race won by him,

and copy It entire: STALLION TROT AT LOUISVILLE, KENTUCKY.

LOUISVILLE, KY., Ang. 10, 1863.

DEAR SPIRIT: Fully expecting that some one better fitted for the task would have furnished before this to your valuable paper an necount of the great stallion trotting race, which came off over the Woodlawn Course Friday, July 10th, I have determined to undertake the task myself, rather than have unnoticed a race, which, from the character of the horses contending and the warm outside feeling, was probably the most exciting that has taken place in Kentucky for years. I shall be brief, and, not being familiar with turf expressions, nust deal in homespun terms. The race was mile heats, three best in five; the stake closed with four eniries, as follows: A. Pennington named John Henry, J. B. Parks. Edward Everett; L. L. Dorsey, Gold Dust; W. E. Milton, Limber Jim, John Henry was purchased in the East several years since by a company, bringing with him a noble lineage and a fair record of facet performances, and his owners have ever been willing to satisfy those who might desire to test their correctnesse. Edward Everett is also an exotic of more recent importation, and, by the way, from your State I believe, by Sherman Black Hawk, dam, Arablan mare Mary Kellar; young and comparatively untried, but possessing a remarkable combination of great muscular powers and compactness, with a nervons and graceful novement that plainly proves him to be a worthy member of that par excellent trotting family. The other two entries were "to the manor born." Vermont Morgan, and the property of L. L. Dorsey, of this county, one of the largest and most successful breeders of trotting horses in the West. His horse, Gold Dust, has bantered the world for a race, he and five of his colts, against any horse and same number of get. Limber Jim is only four years old, a "crack nag" for his age, and promises to make himself known. Pardon this diversion. The bell rings—only three horses appear, Limber Jim being withdrawn. More trouble, Gold Dust appears with a negro driver, which is objected to as contrary to rules of the association; some parley, and a white substitute is obtained, but he seems restive under his new control and acts badly; further parley and he is withdrawn, leaving us only two horses, John Henry and Edward Everett. Why, I do not know, but all the interest of the race seemed to have been centered, from the beginning, on these two nage, and wenter that discovered that the world of the race would be at the second of the trace that the world of the trace that the control of the second of the trace seemed to have been centered. REBELS ON THE LEBANON ROAD.

The Train Captured and Burned.

Of late we have published frequent reports of the congregation of different guerrilla bands in our State, and intimated that their intention was a raid on the Louisville and Nashville railroad. On yesterday the train from this point to Lebanon was captured by squad of eighty men under command this point with a good load, and upon reaching New Hope, a point seven miles from Lebanon, it was fired upon by a party of men under Captain Bennett, who claims that he belongs to Morgan's brigade. In the firing upon the train one of the guard was mortally wounded, and another was slightly wounded. nati; Kate Robinson, from St. Lonis; Liberty No. intered that place yesterday afternoon at 2 The guerrillas, after capturing the train, set 2, from Memphis; Big Grey Eagle, from Henderfire to and burned the passenger cars, but permitted the engine and baggage car to go to Lebauon. Col. Hicks is entitled to great praise for his heroic defense. The rebel Brigadier-General A.P. Thompson, formerly of Paducah, was killed. Col. Hicks captured a rebel surgeon, who says Forrest intended a eurpriae, and felt fully able to take the fort. Four negroes, who served the artiliery, were killed and wounded. All were shot in the hend. HEAPQUARTERS BOARD OF FRROLLMENT,
FIFTH COX. DISPRICT, KENTUCKY,
LOCUSVILLE, March 26, 1864.

IN ORDER TO ACCOMMODATE THE WISHES OF
many slaveholders in this city, we gave to them the
privilege to appear at designated places at specified
times, to enroll their slaves under the National laws, instead of sending enrolling officers among their slaves,
our effort to oblige these pariles has not been met in a
spirit corresponding to our expectations. But our duty
must be discharged honestly and in all fidelity. We
therefore require all those slaveholders who have disregy rided this call to appear before the enrolling officers
of their respective districts, at the times and places
of their respective districts, at the times and places
of their deadquarters for the action of the Board of Enrollment.

The Rey, H. A. HUNTER will be stationed at the Ings Headquarters for the action of the Board of Enrollment.

The Rev. H. A. HUNTER will be stationed at the
KENTUCKY ENGINE HOUSE, on Jefferson street: between
Preston and Jackson, to secure additional reports from
the Eastern District (east of Third str et), from TuesDAY, the 28th Inst. to SATURALY, APRIL 24.

Mr. G. T. WHITNEY will be stationed at the UNICH
EMGINE HOUSE, Jefferson street, between Sixth and
Seventh, from WEDNESDAY, 30th Inst., to SATURDAY,
APRIL 24, to receive additional reports from the Western
District (west of Third street.) WILL. R. HERWEY, Commissioner.

WE ARE IN POSSESSION OF FACTS SHOWING that a number of persons are engaged in alarming nearoes about the enrollment, and in enticing them away fron the enrollment are subject to the same regulations that apply to the whites, and all such fuglitives will find the laws rigorously enforced.

The Deputy Provest Marshal, and all who hold authority under this Board, are hereby instructed to be vigilant and prompt in arresting these offenders. They are directed to see the pickets and instruct them to arrest and forward to these lleadquarters all nearoes thing from the euroliment, and all persons engaged in enticing the negroes to leave Keniucky, and in adding in, or conniving a their enlistment out of the State. If the negroes are to enter the Federal service, the Commonwealth is entitled to the credited for them en her quota, and all who undertake to rob the Commonwealth is entitled to the credited for them en her quota, and all who indertake to rob the Commonwealth of this right must be made to feel the rigor of the law.
